WCDA Webinar Courses Overview

First Half of 2023

The Water Collaborative Delivery Association offers a broad range of webinar education opportunities priced for individual attendees. For the first half of 2023, three courses have been scheduled: (1) Fundamentals of Collaborative Delivery (based on the revised *WCDA Water and Wastewater Collaborative Delivery Handbook, Sixth Edition*), (2) a preview of our new implementation curriculum that focuses on the construction phase of CMAR and progressive design-build projects, and (3) a brand new DEEP DIVE course that goes in depth on the meaning of *best value*.

Register now to confirm your spot in any of these courses . . . and stay tuned for more to come in the second half of 2023.

Fundamentals of Collaborative Delivery

Curriculum for this seven-session online course is based on WCDA's *Water and Wastewater Collaborative Delivery Handbook, 6th edition*. The course covers whether collaborative delivery is right for your project; provides an overview of the collaborative delivery options; discusses risks and contracts; emphasizes the importance of O&M engagement; outlines the process for getting a project ready for procurement; and presents steps for implementing a best-value procurement process. This is WCDA's core curriculum for those new to collaborative delivery.
