

NEW WEBINAR!

# Introduction to Collaborative Delivery Risk Allocation, Commercial Terms, and Contracts

Join the WCDA for a webinar focused on risk allocation and contract principles for CMAR and design-build projects based on the new sixth edition of the *Water and Wastewater Collaborative Delivery Handbook*.

**Who Should Attend?** This course is focused on attorneys, legal professionals, and senior procurement roles who may be engaged in current or future collaborative delivery projects. Project managers and agency executives are also invited to attend.

**SEPTEMBER 26, 2023 | 11 AM – 1 PM MDT (via Microsoft Teams)**

## CONTENT OVERVIEW

This two-hour session covers risk allocation, commercial concepts, and sources of contracts for construction management at-risk (CMAR)—also known as CM/GC and GC/CM—progressive design-build (PDB), and fixed-price design-build (FPDB) as summarized in WCDA's *Water and Wastewater Collaborative Delivery Handbook*. For this webinar, the handbook material will be expanded to cover the following:

- Which otherwise familiar design and construction contract terms may be **applied in a new context** for CMAR and design-build projects
- How risk-related contractual terms may be viewed through a **performance accountability** lens for design-build projects
- What **additional contract terms** must be included to support effective two-phase, open-book CMAR and PDB contracts

Interested in obtaining continuing legal education (CLE) credits for this course valid for your state of practice? Let us know your state when you register or inquire in advance at [Education@WaterCollaborativeDelivery.org](mailto:Education@WaterCollaborativeDelivery.org).

**Coming Soon: The Essentials of Collaborative Delivery Risk Allocation and Contracts In-person Course: November 9, 2023, 9 a.m. – 5 p.m., Denver, CO (Polsinelli Law Office).**

For those interested in a comprehensive deep dive into contract templates and terms, specific statutory requirements for collaborative delivery in many states, and an extended discussion on risk allocation, look for open registration to this new WCDA course in late September. CLE credits will be offered.

## COST

**\$295/person**

Registration also includes access to a PDF version of the *Water and Wastewater Collaborative Delivery Handbook, 6th edition*.

## FACILITATORS

**Mark E. Alpert, PE, FDBIA**
