Collaborative Delivery Sessions at WEFTEC 2025

The sessions highlighted below focus on collaborative delivery or feature water infrastructure projects delivered using collaborative delivery methods.

Monday, September 29

- 1:30 pm – **Learning Exchange: Innovative Finance for Collaborative Delivery** (McCormick Place, Room N230B, Level 2) *Jared Burdick, Jesse McDonald, Nikita Lingenfelter—Sundt Construction*
- 1:30 pm – **Process Intensification Using MBR and S2EBPR Technologies** (McCormick Place, S405a, Level 4) *Kelly Comstock, Jose Jimenez, Mark Miller—Brown and Caldwell; Jason Ray—Archer Western Construction, LLC; and David Clark—Fulton County Public Works*
- 1:30 pm – **The Challenges of Financing Water Infrastructure in Global Markets and Lessons for North American Water Utilities** (McCormick Place, S501a, Level 5) *Moderators: Garry Macdonald—Beca Ltd; Karyn Stickel—Hubbell, Roth & Clark, Inc.; and Cheyanne Harris—Brown and Caldwell*
- 2:00 pm – **Perspectives from North America on Implementation of P3/PPP in Water** (McCormick Place, S501a, Level 5) *Moderators: Garry Macdonald—Beca Ltd; Karyn Stickel—Hubbell, Roth & Clark, Inc.; and Cheyanne Harris—Brown and Caldwell*

Tuesday, September 30

- **Collaborative Case Studies: Design-Build for Effective Capital Delivery** (McCormick Place, Room S402B, Level 4) *Moderators: Shane Bragg and Malia Turner—Hazen and Sawyer*
 - 1:30 pm – **Innovative Project Delivery: Success at Sterling Natural Resource Center.** *Daniel Kleist—Anaergia Services, LLC; Michael Moore—East Valley Water District; and Lokeswver Angamuthukumar—Anaergia Services, LLC*
 - 2:00 pm – **Elevating Operator Input: Techniques from a \$580M Greenfield RWRWF.** *Corey King—HDR; Nicole Bartlett and Joseph Lockler—Charlotte Water*

- 2:30 pm – **Start to Finish: How to Design, Build, and Operate a Wastewater Recycling Facility in Less than 18 Months.** *Shannon Jessica—Cloacina, LLC.*

- 4:30 pm – **The Canoas Wastewater Pump Station, Alternative Delivery of a Major Component of the Bogotá River Sanitation Program in Colombia** (McCormick Place, S401a, Level 4) *Alejandro Montes and Fernando Sarmiento—TYLin*

Wednesday, October 1

- 8:30 am – **Revitalizing Tampa Bay: Lessons from the Largo WWRF Nutrient Removal Project** (McCormick Place, S401a, Level 4) *David Mahler—CPH Engineers, Inc.; Kyle Hicks—City of Largo; and Caroline Wilson—Kiewit*
- **Design-Build: Wetlands, Rivers, Storms, Oh My!** (McCormick Place, Room S504d, Level 5) *Moderators: Erik Johnson—Ramboll and Andrew Peters—Evansville Water and Sewer Authority*
 - 1:30 pm – **Reinventing an Old Technology: In-system Pipe Storage.** *Brian Rubel—Tetra Tech; Steven Rozycki and Vince Astorino—Macomb County Public Works*
 - 2:00 pm – **Fast-Tracking Gravity Sewer Design and Construction Using Design-Build.**
 - 2:30 pm – **Siphon Design Under the West Fork of the Trinity River.** *Kelly Davis—Trinity River Authority of Texas and Reyna Johnson—LAN*
- 2:00 pm – **Innovating Water Infrastructure: Driving Sustainability with the Envision Rating System** (McCormick Place, Innovation Pavilion) *Kathleen Mannion—Carollo Engineers*

*We did our best, but this is not an exhaustive list.
