

Fundamentals and Implementation of Collaborative Delivery

*Open Enrollment
In-Person Training*
Las Vegas, Nevada

Join WCDA and its sponsors for a full-day education event on the fundamentals and implementation of collaborative delivery projects, based on the *Water and Wastewater Collaborative Delivery Handbook*, 6th edition.

Who Should Attend? WCDA members, public utility leaders, engineers, project managers, procurement professionals, and O&M staff who have an interest in learning the fundamentals and implementation of collaborative delivery projects. This course features a broad overview of collaborative delivery terminology and best practices for identifying, procuring, and delivering projects, followed by a deep dive into the implementation of two-phase delivery methods such as CMAR and progressive design-build. No previous experience necessary. **Attendance at this course is open to all WCDA members, public agency employees, and limited additional space for nonmember practitioners who may be interested in WCDA.**

COURSE AGENDA
